

LT 3.4 Skills Practice

Solving Quadratic Equations By Graphing

Use the related graph of each equation to determine its solutions. How many solutions does it have?

1. $x^2 + 2x - 3 = 0$

2. $-x^2 - 6x - 9 = 0$

Solve each equation by graphing. How many solutions does it have?

3. $x^2 - 6x + 5 = 0$

4. $-x^2 + 2x - 4 = 0$

5. $-x^2 - 4x = 0$

6. $-x^2 + 36 = 0$
